

# Sealed With A BANG

## The Logic of Love

Miss Bang's class exchanged valentines on Valentine's Day. Also, students received gifts from their special someones, such as a love song CD. Can you answer the following questions about the children who sit in the first row of her class? You will receive two points for every correct answer blank you fill in and lose a point for every wrong answer. Starting times will be determined by your score. Ties will be broken by the order in which you handed in this sheet. **Please submit your answers no later than 6PM.**

1. Who sits in the middle of the row? \_\_\_\_\_
2. How many valentines did Shelley receive? \_\_\_\_\_

# Sealed With A BANG

## CLUES:

1. Alex received five valentines.
2. All the male children in the class received edible gifts.
3. Ben, who didn't receive the Hershey kisses, sits in between Keats and Wordsworth.
4. David had one more valentine than Tennyson.
5. David, who is allergic to chocolate, got in trouble for passing notes to his neighbor, Keats.
6. Each child received a different number of valentines; however, they were all in consecutive order.
7. Wordsworth's first name isn't Emma.
8. Longfellow, who sits on one end of the row, got one less valentine than Alex, who did not receive the most valentines.
9. No child received exactly one more valentine than his neighbors.
10. One student received sweethearts candy.
11. Cindy doesn't sit second from the window.
12. The student who received the most valentines did not sit closest to the door.
13. Emma did not get flowers from her boyfriend.
14. Emma had one fewer valentine than Shelley, who doesn't sit second from the door.
